

Outback Pergola

Outback Pergola

Create an inviting open-air setting that will let the light in and improve the appearance of your home. Add a functional outdoor space to shade and protect recreation areas and delicate plants.

With massive spans of up to eight metres, it is available freestanding or attached. The beams can be left open or fitted with shadecloth for full sun protection. The shadecloth is attached with a special clip for a neat finish. Complete the system with optional profiled beam ends.

Pergola Shade Blade™

Natural filtered light can be created with the innovative Shade Blade system. Designed to attach to your pergola as an angled, fixed blade arrangement, Shade Blade lets the light and breeze in while providing shelter from the sun. The unique blade design has a small gutter to provide protection from light rain.

For added privacy, Shade Blade can be installed as a side screen. When used as a side screen, the support post centres should be a maximum of 1.2 metres apart.
